Subject: Important EPA Meeting October 19th 2011

YOU DESERVE TO KNOW THE TRUTH!

The community along the San Jacinto River deserves to know the truth about the level of dioxin and other pollutants present in the area and what are the real consequences of exposure to the health and well-being of the community.

On October 19th, Texans Together Education Fund will host independent scientists to reveal the results of their study of soil, fish and sediment samples taken recently from areas near the waste pits. Come ask your questions and get answers.

Please join us to hear about the scientists' findings and to participate so that the government and the responsible parties finish fully cleaning up the river.

When: Wednesday October 19nd,2011 at 6:30pm

Where: Highlands Community Center 604 Highlands Wood Dr.

9548968

NO QUICK FIXES

CLEAN THE RIVER!
